A THOROUGH TEST

One to Convince The Most Skeptical Mexico Readers.

The test of time is the test that counts. Don't Kidney Pills have made that reputation by effective action.

The following case is typical. Mexico residents should be convinced by this testimony.

The testimony is confirmed — the proof complete. Like this cannot be ignored.

Edward Dermody, Clark Ave., Mexico, says: "Two years ago I was suffering from irregular action of my kidneys and sharp pains in my sides and over my kidneys. I had headaches, etc. I used Don't Kidney Pills, procured at Llewellyn & Sons' Drug Store, and soon was cured of the trouble."

The above statement was given on November 16, 1911, and on June 14, 1912, Mr. Dermody said: "I have never been bothered by kidney complaint since recommending Don't Kidney Pills in 1911. I still think this medicine is one of merit and endow it just as strongly today as I did before."

Price 50c, at all dealers. Don't simply ask for a kidney remedy — get Don't Kidney Pills — the same that Mr. Dermody has twice publicly recommended. Foster & McBlair Co., Props., Buffalo, N. Y.

MANY WANT BANK POSITION

WASHINGTON, D. C., Jan. 4. — Active campaigning for official positions in the Federal Farm Loan Bank to be located in St. Louis have begun here. Petitions were circulated among members of Congress yesterday for Cornelius Roach, retiring Secretary of State; Oliver J. Lloyd, of Shelbyville, Mo., son of Congressman James T. Lloyd, and Henry Woodruff, of St. Louis, formerly of Mexico, Mo. Roach and Woodruff, both seek the presidency of the bank, while young Lloyd is an applicant for Secretary. Before they may obtain these offices, they must be elected to the bank's directorate, five members of which are to be named.

Lloyd is secretary of the Old Bank Trust Company of Shelbyville and formerly was cashier of the National Bank of that place.

C. C. Welsh, president of the Bank of Elberly, is a candidate for registrar of the St. Louis Bank.

In all, more than 100 applications have been filed for positions in the bank.

Dr. Ashby Grantham, of Joplin, came to Mexico Friday evening to be at the bedside of his sister, Mrs. S. P. Emmons, who is quite sick.

SOUTHERN EXTENSION OF R. R. NOT ABANDONED

Rails Have Been Sold to Junk Dealer from Southern Portion of the Electric Road Here.

WIRE TO BE REMOVED

Ties and Fences to Be Kept Intact and Right-of-Way Will Likely Be Bought Later.

Regardless of the fact that the rails on the southern extension of the electric line have been sold to a junk dealer, and that the wire will be removed, Judge W. B. Botts says this does not mean that the company will continue to seek a buyer for the right of way with a view of extending the road.

The steel rails were purchased by Walter L. Zincker, of St. Louis, and brought more as junk than when new. Judge Botts stated that should McKinley buy the road he would have taken up the rails and replaced them with 70 pound steel and also used a heavier trolley wire.

Every effort was made to find a purchaser for the entire property, but no bids were secured. The project is not abandoned, according to Judge Botts, but a buyer for the right of way which is graded for 8 miles, and partly fenced, sought.

The Habit of Taking Cold.

With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge bath every morning when you first get out of bed—not too cold, but at a temperature of about 90° F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.

J. N. Cross Wants "Old Home" News.

J. N. Cross, formerly editor and proprietor of the Mexico Message, now located at Keyes, California, is sending remittance for the Mexico Weekly Ledger for a year writes as follows:

KEYES, California, Jan. 2, 1917. — R. M. White, Mexico, Mo. Dear Sir: Please hand me fifty-two numbers of 1917 Ledgers for sale of memories of "ye olden time."

Best wishes to you and Mrs. White and the boy whom I notice by newspaper references is now become a man following in the footsteps of his illustrious father I trust, except where that father sidedsteped occasionally.

I have started twice to write you, but was too busy to conclude the letter—could not make them short enough when writing you—too big a field to cover. As ever, yours,

J. N. Cross.

Found a Sure Thing.

F. B. Wixon, Farmers Mills, N. Y., has used Chamberlain's Tablets for years for disorders of the stomach and liver and says, "Chamberlain's Tablets are the best I have ever used." Obtainable everywhere.

HOSPITAL NOTES.

Mrs. Martha Eason, who has been in the Hospital for several weeks, returned to her home Saturday.

Mrs. Sarah Alderman, of Martinsburg, who has been at the Hospital, has returned to her home in Martinsburg, going Saturday.

Charles P. Newman, of near Mexico, underwent an operation at the Hospital Saturday.

Fred Riggs continues to improve. Cadet Ghoshon, of the Missouri Military Academy, who is ill with pneumonia at the Hospital, was reported slightly better Saturday.

The condition of Carol Glover continues to improve.

Bad Habits.

Those who breakfast at eight o'clock or later, at twelve and have dinner at six are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick remedy. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

OLD POULTRY HOUSE BURNS.

The old poultry house, near the Chicago & Alton freight depot, was destroyed by fire about 4 o'clock Thursday morning.

The building, which was vacant, was owned by the F. M. Stamper Co. of Moberly, and the ground on which the building stood, was owned by Gus Steinman.

Fire was discovered in the building at 5:30 o'clock Wednesday afternoon and extinguished by passersby. The origin of the fire is not known. The fire company went to the building at 8 o'clock Thursday morning and worked there for some time, to make certain that all vestige of the fire was extinguished.

ARMY GOT 3 PAIRS OF TWINS

SAN FRANCISCO, Jan. 4. — The district headquarters recruiting office of the United States army made a remarkable record one day recently when three pairs of twins were taken to the service.

California can claim none of the twin products. One pair, Charles F. and Henry Roedel, hails from Rochester, N. Y.; John C. and Fred G. Piefer and Joseph B. and Herman W. Bunning are from Oregon. All three pairs, by a coincidence, selected the Coast Artillery Corps as the branch of service they desired to enlist in, and all three pairs were assigned to the Philippines.

Loss by Fire.

Mrs. L. F. Austin, formerly of this city, writes to friends in this city from her home in Tullahoma, Tenn., that on Thursday of Christmas Week her home was partially burned and quite a lot of new furniture destroyed. AUDRAIN IS THIRD IN BOYS AND GIRLS CLUB WORK

Audrain is Third Among Counties of State in Boys' and Girls' Club Work at Farmers' Week.

2,000 FARMERS THERE

Audrain Boys Who Attended Farmers' Week Are Enthusiastic Over Meetings There.

Audrain county stands third among the counties of Missouri in the work of the Boys' and Girls' Clubs, organized by the extension department of the University of Missouri among the boys and girls in the rural schools throughout the State.

There are several classes of these clubs, hog raising, calf breeding, corn growing, tomato and potato growing, baking, sewing, and canning clubs. Raymond Snook, of Mexico, and Oscar Edell, Rush Hill, who returned from Columbia Friday, brought back with them the ribbon awarded to Audrain county for the work of the Clubs in this county. The boys are very enthusiastic over Farmers' Week and are anxious to see more clubs organized in this county this year. They say the trip to Columbia and the lectures and demonstrations of Farmers' Week would be worth fifty dollars to any farmer.

There are lectures and demonstrations for the girls and women of the farm as well as for the men. There are domestic science talks and demonstrations by the instructors in these courses in the University.

Audrain county was represented by Penant Atchison, Worcester; Theodore Selb, Mexico; Oscar Edell, Rush Hill; Raymond Snook, Mexico, and Mr. and Mrs. R. W. Ray, of Benton City.

UKULELE INDUSTRY GROWING.

SEATTLE, Jan. 4. — It has become apparent that the ukulele has invaded the American market with some promise of a permanent place in the public regard. Those who have not attempted harmony upon it may have speculated upon its source. A. P. Taylor, a correspondent of the federal department of commerce, has given some information on that point.

The ukulele was first produced by a Portuguese at Honolulu, Hawaiian Islands. It was a popular vehicle of music in the islands before it invaded the American market.

Mr. Taylor tells us that September 1, 1915, the ukulele factories of the islands were turning out five hundred or six hundred instruments a month. A year later the production had increased to sixteen hundred a month, and the orders from music dealers were far from being all filled. Last month a company was organized in Honolulu to manufacture two thousand ukuleles a month.

The ukulele is made principally of the native wood. The peculiar tone produced is said to be obtained only from well seasoned koa wood, properly prepared and fitted. The island prices for the instrument range from \$2.75 to \$30, the higher priced product being heavily beaded. With the new companies forming, the output during this year is estimated at forty thousand.

RAILROAD HAS CLEAN RECORD

PHILADELPHIA, Jan. 5. — The Pennsylvania Railroad in 1916 carried 196,294,446 passengers on its lines east and west of Pittsburg without the loss of a life in a train accident, according to statistics made public by the company yesterday. It was a record breaking year in the handling of both passengers and freight traffic.

No passengers have been killed on any line of the Pennsylvania System in three years, in which more than 653,890,000 persons have been transported approximately 15 billion miles. More than nine million freight and passenger trains were operated over the company's 12,000 miles of railroad lines in the 3-year period.

DIXIE'S FAST DAY.

We are thinking of ye, brothers, Of the struggle dark and deep, Of the steady and the weary, That ye often have to keep; Of the tolls and march and ever The cold and rugged bed And our heart is bowed in sorrow We cannot taste our bread.

We are weeping for ye, brothers, Our injured Dixie's friends— On your brave and gallant daring There more than life depends— But our spirit sometimes falters With waiting for the day. Of redemption from these horrors And the tears will force their way.

We are praying for ye, brothers; The closest is our shrine— We dare not lift our voices Beneath the stranger's brine. But God is ever nearer The poor and broken heart, And this day with Dixie's daughters We'll bear our humble part.

Bring peace unto her borders; Oh! Stay this bloody tide, And bid her lift her drooping head Once more in freedom's pride. And as we pass this Jordan, This doubtful, dark eclipse, May we emerge in glory— With Thy name on our lips.

GIRL TELLS EXPERIENCE IN OKLAHOMA FLOOD

Vireton, Okla., Teacher Tells of Coming of Flood in Which 15 Children Lost Lives.

STORM CAME SUDDENLY

The Storm Came so Suddenly That the Children Were Given No Time to Save Themselves.

McALLISTER, Okla., Jan. 5. — How the little rural school house at Vireton, Okla., was torn from its foundations, whirled through the air and ripped to pieces by a tornado, causing the deaths of 15 children, was described yesterday by Miss Vera Carter in the teacher, as she lay on a cot in a hospital here, where she is under treatment for injuries received in the storm.

"It was hearing a primary class when the storm broke," Miss Carter said. "It had been raining, but we thought nothing of that until about the noise of the pattering on the roof we heard a different sound, a peculiar low-drawn hiss."

"I went to the door and looked out. A big, black cloud, moving very fast, came up the valley, enveloping the Baptist Indian Mission and three pieces of it high in the air. Away to the south the sky was a ghastly green, which lightened everything with an unearthly glow."

"The cloud twisted and whirled straight toward the school house. I closed the door and placed my back against it. There was nothing we could do. When the storm struck it seemed as if the end of the world had come, so great was the roar and confusion, as the school house, lifted into the air, twisted dizzily and then went all to pieces."

"I was battered against pieces of flying timbers, sucked forward by a terrible blast of air, which took away my breath, and left me almost unconscious. It was awful awful! It seemed as if I was being drawn into a mighty whirlpool. Dark objects whirled around me. Some of them were my pupils, my poor little children."

"After a time I found myself lying on a pile of many children stretched near me, some of them motionless, some of them moaning in pain. Their clothes were covered with blood. Through the clouds the sun was breaking and a rain was falling gently."

Miss Carter will recover, despite a broken right arm, a fractured jaw and serious bruises.

Mr. and Mrs. Lambert Home.

Mr. and Mrs. Lambert, of Audrain county, returned home recently from Victoria, Texas, after spending Christmas with their son, I. D. Lambert and family.

On the 24th their son took them motoring to the coast, the water being too cool to take a plunge, they contented themselves by gazing at the great salt water. The day being ideal for motoring, as also were the salt roads, they passed through and gathered oranges and conchuts from the large fruit groves. They were delighted with the Sunny South and thought it an ideal place to spend the winter.

WIFE SUES MCCRACKEN

NEW YORK, Jan. 4. — Although Samuel McCracken received \$29,000 as his share from the Willard-Moran fight, Mrs. McCracken says all she received was a blow on the cheek.

According to her testimony in her separation action in the Supreme Court yesterday, she went to the McAlpin Hotel to ask McCracken "to do the right thing by her" since he had received so much money. The blow was what he gave her she told Justice Giegehr. McCracken is a former Fulton, Mo., boy and well known in Mexico.

McCracken was formerly general manager for the Barnum and Bailey circus, receiving \$10,000 a year, his wife says. In those days, before they were married, Mrs. McCracken says he gave \$200 a month to her for pin money. In addition to his Willard-Moran profits, Mrs. McCracken says her husband is associated with "Tex" Rickard in the direction of the American tour of Les Darcys.

Leopold Barth returned Friday from St. Louis, where he went to meet his mother, who returned from an extended visit in Youngstown, Ohio.

Prosecuting Attorney R. D. Rodgers is home from a business trip to Jefferson City.
